PROFESSIONAL AESTHETICS

THE SCIENCE OF AESTHETICS, BEAUTY IN ITS ESSENCE

New energy for the skin, a new vision of regenerative aesthetics

Every gesture you make is caring, every beauty ritual is an experience of beauty and wellness. In our laboratories, we have created a **professional cosmetics line** with formulations for the **face** and **body**, almost all of which are enriched with a unique and precious ingredient: **ozonated water**.

A living water, charged with energy, which stimulates the tissues and gives new light to the epidermis. A natural ally that amplifies the effectiveness of your treatments, respects the skin, and awakens its potential. An extraordinary active ingredient whose purifying and regenerating properties promote tissue oxygenation and help the skin regain its balance and natural radiance.

The products are designed to offer a comprehensive, step-by-step routine that can be tailored to your needs. From cleansing to remove impurities, to exfoliation that regenerates, to hydration that restores freshness, and nourishment that envelops you in new vitality.

Two worlds, one philosophy: the Mesorga Estetica range includes products for **professional use in salons** and for **home care**, which can be recommended to customers to prolong and enhance the effects at home.

This isn't just cosmetics.

It's a new concept of beauty: more conscious, more authentic, more you. 100% Made in Italy

FACE AND BODY LINE FOR SKIN CARE

The line is designed to offer complete, tailor-made skincare that accompanies every step of the process: **cleansing, exfoliation, hydration, and nourishment**. Each product works in synergy to enhance the beauty ritual and guarantee visible, long-lasting, and immediate results, giving you a younger, more radiant face and a more toned and harmonious body silhouette.

RADYANTYA LIFT GEL

**Gel based on Ozonated
Water and Peptides**
150 ml bottle

02

Conductive gel formulated to optimize the transmission of impulses generated by aesthetic devices. The presence of hyaluronic acid helps maintain proper skin hydration, while peptides help stimulate and improve tissue elasticity and tone.

LAQUA FOAM CLEANSER

Cleansing mousse
150 ml airless bottle

01

Formulated with ozonated water and biodegradable surfactants, the mousse cleanses the skin while respecting its natural balance. Botanical extracts of Echinacea, Sage, and Aloe Vera, together with Hyaluronic Acid and stabilized Vitamin C, help to moisturize and protect, leaving the skin fresh, soft, and radiant.

MESORGA ALGI MASK

**Active alginate powder
face mask**
Box of 3 sachets, 40 g each.

03

Maschera in polvere che, a contatto con l'acqua, si trasforma in un gel che cambia colore con il pH della pelle. Arricchita con Alghe Rosse, Curcuma e Bromelina, rinvitalizza le pelli spente e affaticate. Il Sodio Ialuronato favorisce l'idratazione, mentre Silice e Alginati regalano un effetto levigante e tonificante. Ideale per donare luminosità e freschezza immediata.
