PROFESSIONAL AESTHETIC PEELING

# OZONYCA 3 PEEL

## The professional solution for effective, non-invasive aesthetic peeling

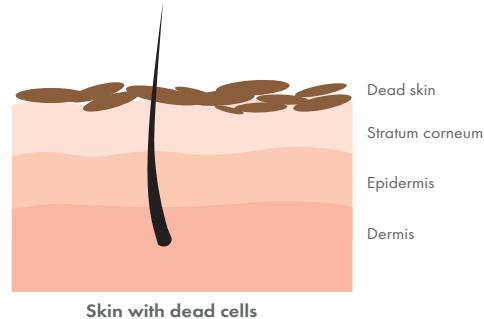

**Aesthetic chemical peeling** is a professional topical treatment that involves applying selected active ingredients to the skin to promote cell renewal and improve the skin's appearance. Depending on the formulation, a peel may contain **a single acid (monocomponent)**, targeted at a specific need, or **a synergistic blend of several combined acids**, designed to act on multiple skin levels and comprehensively address various imperfections.

The controlled exfoliating action removes dead cells from the stratum corneum, stimulates cell turnover, and promotes the production of new epidermal cells. The benefits are evident from the very first applications: **the skin appears smoother, brighter, more toned, and more uniform**, with a significant reduction in imperfections, discoloration, and signs of aging.

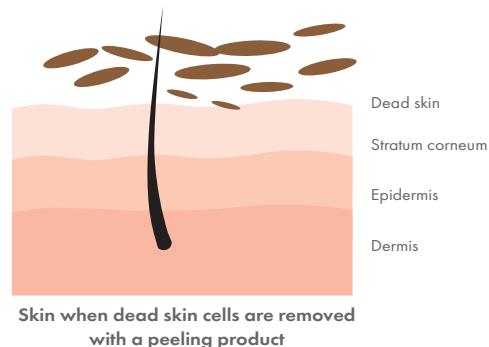

Thanks to its versatility and progressive yet immediately visible results, chemical peeling remains an **evergreen treatment** in the world of **advanced Aesthetics**.

## A TREATMENT SUITABLE FOR ALL AGES AND SKIN TYPES

There is no minimum or maximum age for undergoing a peel, but there is the right protocol for every skin need. From preventing the first signs of imperfections to more targeted anti-aging treatments, the three solutions in the **Mesorga Ozonyca 3 Peel box** allow you to tailor each session to your skin condition.

**Chemical peels: renew the skin by removing the surface layers, visibly improving its appearance**

# WHY CHOOSE MESORGA OZONYCA 3 PEEL

MESORGA

The **Mesorga Ozonyca 3 Peel box**, 100% Made in Italy, was created to offer the world of aesthetics a complete, effective, and safe tool capable of treating various skin imperfections with a targeted but non-invasive approach.

All formulations are enriched with **Ozonated Water**, an exclusive ingredient developed in our laboratories, which enhances the effectiveness of the peels thanks to its purifying, oxygenating, and rebalancing action, helping to improve skin quality and amplify the aesthetic benefits.

Each box contains **6 professional vials**:

two vials of **Ozonyca Mandelic Peel**;

two vials of **Ozonyca Purifying Peel**;

two vials of **Ozonyca Lightening Peel**.

The box contains:

**OZONYCA  
MANDELIC PEEL**  
2 vials of 6 ml each.

**OZONYCA  
PURIFYING PEEL**  
2 vials of 6 ml each.

**OZONYCA  
LIGHTENING PEEL**  
2 vials of 6 ml each.

## ADVANTAGES

Mesorga peels can be used in synergy and **combined in the same session**, depending on the characteristics of the skin and the type of imperfection to be treated. This versatility allows **each treatment to be customized in a targeted manner**, combining different active ingredients to maximize results and meet the specific needs of each client.

# OZONYCA MANDELIC PEEL

Chemical peeling based on **Mandelic Acid**, known for its delicacy and tolerability, effectively stimulates natural cell turnover without causing irritation or redness. The presence of **Ozonated Water** amplifies the exfoliating action with a purifying effect, improving the appearance of dull or impure skin. Perfect for sensitive or mature skin, it not only gives immediate radiance and freshness, but also has an anti-aging effect, improving elasticity and gradually reducing small imperfections and signs of aging. Suitable for use in all seasons.

## INDICATED FOR:

all skin types (normal, impure, sensitive, and mature)

## Mandelic Peeling

2 vials of 6 ml each  
in each box

## ACTIVE INGREDIENTS

Ozonated Water

Mandelic Acid

## KEY BENEFITS

Non-photosensitizing

Suitable for all seasons

Anti-wrinkle, brightening, sebum-balancing action

# OZONYCA

## PURIFYING PEEL

Chemical peel formulated to purify and rebalance facial skin, ideal for impure or acne-prone skin. The combination of **Ozonated water**, **Mandelic acid**, **Lactic acid**, and **Succinic acid** refines the skin texture and evens out the complexion, while **Niacinamide (vitamin B3)** strengthens the skin barrier and reduces the visibility of pores. **Camellia Sinensis (green tea)** extract helps to relieve irritation and protect the skin with its antioxidant action. Non-photosensitizing, it is also suitable for treating teenage acne.

### INDICATED FOR:

pelle impura, grassa, mista, seborroica,  
a tendenza acneica

### Purifying Peeling

2 vials of 6 ml each  
in each box

### ACTIVE INGREDIENTS

Ozonated Water  
Lactic Acid  
Mandelic Acid  
Succinic Acid  
Niacinamide  
Green Tea Extract

### KEY BENEFITS

Dermo-purifying action

Non-photosensitizing

Suitable for teenage acne

# OZONYCA LIGHTENING PEEL

Chemical peel suitable for dull, opaque, or discolored skin, improves skin tone and firmness.

The **Ozonated Water**-based formula combines **Lactic acid**, **Glycolic acid**, **Mandelic acid**, and **tranexamic acid**, which stimulate cell turnover and eliminate dead cells, with **Arbutin** and **plant extracts**, which have soothing and antioxidant properties. It helps reduce the appearance of dark spots and evens out the complexion, giving the skin a brighter and more even appearance from the very first applications.

## INDICATED FOR:

dull, opaque, dyschromic, mature skin

## Lightening Peeling

2 vials of 6 ml each  
in each box

## ACTIVE INGREDIENTS

Ozonated water  
Lactic acid, Glycolic acid  
Mandelic acid, Tranexamic acid  
Arbutina  
Ferulic acid  
Plant extracts (Grape, Vine, Yarrow, Heather)

## KEY BENEFITS

Uniforms skin tone

Reduces the appearance of dark spots

Gives a radiant appearance

# USAGE RECOMMENDATIONS

Apply the peel to thoroughly cleansed and dry skin, using a brush to avoid sensitizing your hands.

Avoid the eye and lip areas.

Leave on for a few seconds up to a maximum of 3 minutes.

If you experience a burning sensation or redness, rinse immediately with water.

Then apply a soothing or nourishing cream to promote skin well-being.

The use of electrical stimulation devices is not recommended during treatment. For best results, perform peels when the skin is less exposed to UV radiation.

In case of sun exposure, especially in summer or during a stay at the beach, it is essential to use a cream with a high sun protection factor, **SPF 50+**.

## COMPLEMENTARY PRODUCTS FOR TREATMENT

### MESORGA PRE PEEL SOLUTION

Pre-peeling treatment based on glycolic, mandelic, and azelaic acids, which promotes gentle exfoliation, eliminates dry skin, and stimulates cell renewal.

### MESORGA PEELING NEUTRALIZER

Neutralizing gel with sodium bicarbonate. Blocks the action of acid after peeling, restores skin pH, and reduces post-treatment irritation.

### MESORGA POST PEELING CREAM

Multifunctional emulsion that moisturizes, nourishes, soothes, and protects, formulated to regenerate dry and dehydrated skin after exfoliating treatments.

Mesorga is an Italian company specializing in aesthetic medicine and advanced aesthetics, engaged in the production of medical devices and professional cosmetics for face, body, and hair care.

Born from over twenty years of experience, it brings together a multidisciplinary Italian-Swiss team of experts: chemists, biologists, and specialists in the Beauty sector.

We develop innovative, unique, and effective formulations designed to achieve superior results through the exclusive use of the purest raw materials, cutting-edge technologies, and compliance with the highest quality standards.
